Plexus Announces Fiscal First Quarter Financial Results

NEENAH, WI – January 24, 2024 - Plexus Corp. (NASDAQ: PLXS) today announced financial results for our fiscal first quarter ended December 30, 2023, and guidance for our fiscal second quarter ending March 30, 2024.

- Reports fiscal first quarter 2024 revenue of \$983 million, GAAP operating margin of 4.6% and GAAP diluted EPS of \$1.04, including \$0.19 of stock-based compensation expense
- Initiates fiscal second quarter 2024 revenue guidance of \$930 million to \$970 million with GAAP diluted EPS of \$0.48 to \$0.63, including \$0.25 stock-based compensation expense and approximately \$0.32 of restructuring charges

	Three Months Ended

Fiscal First Quarter 2024 Information

- Won 30 manufacturing programs during the quarter representing \$261 million in annualized revenue when fully ramped into production
- Trailing four-quarter manufacturing wins of \$1.05 billion in annualized revenue when fully ramped into production
- The Board of Directors approved a new \$50.0 million share repurchase program that will commence upon completion of the current share repurchase authorization, which has \$5.7 million remaining.

Todd Kelsey, Chief Executive Officer, commented, "Consistent with revised expectations communicated on January 16, 2024, Plexus delivered fiscal first quarter revenue of \$983 million, GAAP operating margin of 4.6% and GAAP EPS of \$1.04."

Mr. Kelsey continued, "Our go-to-market organization is leveraging the current environment to create significant opportunity for future growth, delivering sequential increases in new manufacturing program wins and in our funnel of qualified manufacturing opportunities. For the fiscal first quarter, our team won 30 new manufacturing programs worth \$261 million in annualized revenue. Concurrently, we significantly expanded our funnel of qualified manufacturing opportunities by more than \$300 million from the prior quarter to \$4.0 billion. This funnel continues to include a greater than typical number of large program opportunities."

Mr. Kelsey further commented, "We are guiding fiscal second quarter revenue of \$930 million to \$970 million, non-GAAP operating margin of 4.0% to 4.4% and non-GAAP EPS of \$0.80 to \$0.95. The continued demand softening in the Healthcare/Lifesciences market and certain subsectors of our Industrial sector has created inefficiencies within our engineering and manufacturing teams. In order to generate greater long-term organizational efficiency and structurally reduce our fixed costs and operating expenses, we are implementing a series of actions that we believe will result in fiscal second quarter restructuring charges of approximately \$10 million, or \$0.32 per share. We expect to complete these actions by our fiscal third quarter, and believe they will result in approximately \$20 million of annualized cost savings."

Patrick Jermain, Chief Financial Officer, commented, "We are guiding slightly higher cash cycle days for our fiscal second quarter related to additional working capital investments in support of new program ramps. With significant management focus and attention on working capital optimization, we expect improvement to our cash cycle as we progress through the second half of fiscal 2024. We anticipate this improvement will help deliver positive free cash flow to support future anticipated growth and our recently announced \$50 million share repurchase program."

Mr. Kelsey concluded, "We currently anticipate the fiscal second quarter to represent a revenue trough, with sequential expansion in revenue and operating margin during the second half of fiscal 2024. We expect to deliver improved profitability resulting from the restructuring actions, increased manufacturing revenue and improved utilization of our engineering team, and remain committed to delivering 5.5% GAAP operating margin in fiscal 2025. In addition, by leveraging our differentiated service offering, we expect Plexus will continue to drive share gain from large and increasing addressable markets. As a result, we remain confident in our ability to sustain industry-leading revenue growth and returns over the long term."

Business Segment and Market Sector Revenue

Plexus measures operational performance and allocates resources on a geographic segment basis. Plexus also reports revenue based on the market sector breakout set forth in the table below, which reflects Plexus' market sector focused strategy. Top 10 customers comprised 48% of revenue during both the first quarter of fiscal 2024 and the fourth quarter of fiscal 2023. This is down 5 percentage points from the first quarter of fiscal 2023.

Non-GAAP Supplemental Information

Plexus provides non-GAAP supplemental information, such as ROIC, economic return and free cash flow because such measures are used for internal management goals and decision-making, and because they provide management and investors with additional insight into financial performance. In addition, management uses these and other non-GAAP measures, such as adjusted operating income, adjusted operating margin, adjusted net income and adjusted diluted EPS, to provide a better understanding of core performance for purposes of period-to-period comparisons. Plexus believes that these measures are also useful to investors because they provide further insight by eliminating the effect of non-recurring items that are not reflective of continuing operations. For additional information on non-GAAP measures, please refer to the attached Non-GAAP Supplemental Information tables.

ROIC and Economic Return

ROIC for the first quarter of fiscal 2024 was 10.3%. Plexus defines ROIC as tax-effected annualized adjusted operating income divided by average invested capital over a two-quarter period for the first fiscal quarter. Invested capital is defined as equity plus debt and operating lease obligations, less cash and cash equivalents. Plexus' weighted average cost of capital for fiscal 2024 is 8.2%. ROIC for the first quarter of fiscal 2024 less Plexus' weighted average cost of capital resulted in an economic return of 2.1%.

Free Cash Flow

Plexus defines free cash flow as cash flows provided by operations less capital expenditures. For the three months ended December 30, 2023, cash flows used in operations were \$3.0 million and capital expenditures were \$28.7 million, which resulted in negative free cash flow of \$31.7 million.

Days in Advanced Payments (1)	(73)	(75)	(70)
Annualized Cash Cycle (2)	95	87	83

(1) Includes a reclassification in the presentation of advanced payments from customers reflected in prior period amounts. As of December 31, 2022, the impact of this reclassification was an increase in the Company's days in advanced payments and a reduction in annualized cash cycle by 23 days.

(2) Plexus calculates cash cycle as the sum of days in accounts receivable, days in contract assets and days in inventory, less days in accounts payable and days in advanced payments.
