Fiscal Second Quarter 2023 Information

- Won 31 manufacturing programs during the quarter representing \$275 million in annualized revenue when fully ramped into production
- Trailing four-quarter manufacturing wins of \$847 million in annualized revenue when fully ramped into production
- Purchased \$12.4 million of our shares at an average price of \$98.75 per share under our share repurchase program, leaving \$22.6 million available under our current \$50.0 million authorization

Todd Kelsey, Chief Executive Officer, commented, "Our team continues to execute well amidst ongoing market volatility and supply chain challenges. Plexus delivered fiscal second quarter revenue of \$1.07 billion, representing 21% year over year growth, GAAP operating margin of 5.3% and GAAP EPS of \$1.45. Second quarter results exceeded our guidance reflecting increased end of quarter shipments as a result of mitigating supply constraints, better than anticipated performance by our engineering and sustaining services teams and our ongoing focus on improving manufacturing efficiency."

Mr. Kelsey continued, "I'm extremely pleased with the strong performance of our go-to-market organization. Our team won 31 new manufacturing programs worth \$275 million in the fiscal second quarter, capitalizing on robust demand for our solutions across all of our market sectors. Concurrently, the team expanded an already record funnel of qualified manufacturing opportunities to \$4.2 billion, an increase of nearly \$600 million from our fiscal first quarter. The funnel includes several large opportunities across all of our market sectors, which we believe positions us to sustain strong win performance and industry-leading revenue growth."

Patrick Jermain, Executive Vice President and Chief Financial Officer, commented, "We generated \$80 million in free cash flow during the fiscal second quarter, a result that was close to double our net income and exceeded our projections. Through the first six months of fiscal 2023, we generated positive free cash flow, and we anticipate delivering additional positive free cash flow for the second half of fiscal 2023. The fiscal second quarter cash cycle of 104 days was favorable to our expectations and sequentially lower by two days as we benefited from increased end of quarter revenue and continued progress on our working capital initiatives. Improvements in our cash cycle, coupled with strong operating performance, led to return on invested capital for the fiscal second quarter of 13.8% or 480 basis points above our weighted average cost of capital."

Mr. Kelsey further commented, "We are guiding fiscal third quarter revenue of \$1.00 billion to \$1.05 billion, non-GAAP operating margin of 4.5% to 5.0% and non-GAAP EPS of \$1.05 to \$1.23. Our guidance is impacted by our strong late second quarter shipments, supply chain challenges and further semiconductor capital equipment market weakness. The non-GAAP guidance excludes \$9 million, or \$0.29 per share, of estimated restructuring and other charges associated with planned actions to realign our spending to create a more efficient and scalable platform to capitalize on our robust pipeline of future growth opportunities."

Mr. Kelsey concluded, "As we near completion of our annual strategic planning process, I remain convinced in our ability to drive robust revenue growth and strong profitability, including achieving our target of \$5 billion in revenue with 5.5% GAAP operating margin by our fiscal 2025. As we look beyond this goal, I have continued confidence in sustaining our industry-leading revenue growth and profitability as our team leverages our best-in-class capabilities and solutions to help our customers create the products that build a better world."

Business Segment and Market Sector Revenue

Plexus measures operational performance and allocates resources on a geographic segment basis. Plexus also reports revenue based on the market sector breakout set forth in the table below, which reflects Plexus' market sector focused strategy. Top 10 customers comprised 51% of revenue during both the first and second quarters of fiscal 2023, down three percentage points from the second quarter of fiscal 2022, where top 10 customers comprised 54% of revenue.

Non-GAAP Supplemental Information

Plexus provides non-GAAP supplemental information, such as ROIC, economic return and free cash flow because such measures are used for internal management goals and decision-making, and because they provide management and investors with additional insight into financial performance. In addition, management uses these and other non-GAAP measures, such as adjusted operating income, adjusted operating margin, adjusted net income and adjusted diluted EPS, to provide a better understanding of core performance for purposes of period-to-period comparisons. Plexus believes that these measures are also useful to investors because they provide further insight by eliminating the effect of non-recurring items that are not reflective of continuing operations. For additional information on non-GAAP measures, please refer to the attached Non-GAAP Supplemental Information tables.

ROIC and Economic Return

ROIC for the second quarter of fiscal 2023 was 13.8%. Plexus defines ROIC as tax-effected annualized adjusted operating income divided by average invested capital over a three-quarter period for the second fiscal quarter. Invested capital is defined as equity plus debt and operating lease obligations, less cash and cash equivalents. Plexus' weighted average cost of capital for fiscal 2023 is 9.0%. ROIC for the second quarter of fiscal 2023 less Plexus' weighted average cost of capital resulted in an economic return of 4.8%.

Free Cash Flow

Plexus defines free cash flow as cash flows provided by operations less capital expenditures. For the three months ended April 1, 2023, cash flows provided by operations of \$106.0 million, less capital expenditures of \$26.4 million, resulted in free cash flow of \$79.6 million.
