Fiscal Fourth Quarter 2024 Information

- Won 26 manufacturing programs representing \$230 million in annualized revenue when fully ramped into production.
- Generated record quarterly free cash flow of \$194 million.
- Purchased \$19.5 million of our shares at an average price of \$117.91 per share, completing the 2024 Share Repurchase Program. The 2025 Share Repurchase Program was approved by Plexus' Board of Directors in August 2024 for an additional \$50.0 million.

Fiscal Year 2024 Information

- Generated record free cash flow of \$341 million.
- Produced ROIC of 11.8%, representing an economic return of 360 basis points above our weighted average cost of capital of 8.2%.
- Purchased \$55.7 million of our shares at an average price of \$103.81 per share.

Todd Kelsey, President and Chief Executive Officer, commented, "Our team's focus throughout the fiscal year on delivering customer service excellence while driving expanded operational performance resulted in exceptional fiscal fourth quarter financial results and, we believe, positions us well for fiscal 2025. Fiscal fourth quarter revenue of \$1.05 billion, non-GAAP operating margin of 6.2% and non-GAAP EPS of \$1.85 all exceeded guidance, while quarterly free cash flow of \$194 million was a record and substantially exceeded our projections."

Mr. Kelsey continued, "During fiscal 2024, we continued to create value for our shareholders, our team members, our customers and our communities by advancing our sustainable and responsible business practices. Our team made meaningful progress in reducing our global waste-to-landfill and Scope 1 and 2 emissions, donated more than \$1 million through our Plexus Community Foundation and contributed more than 20,000 paid volunteer hours to our local communities. In addition, Plexus was named one of the Top 100 U.S. Internship Programs for 2024 by Yello and Business Friend of the Environment by Wisconsin Manufacturers and Commerce in recognition of our dedication to environmental stewardship, our sustainable business practices and our vision to help create the products that build a better world."

Pat Jermain, Executive Vice President and Chief Financial Officer, commented, "Fiscal fourth quarter cash cycle of 64 days was favorable to our expectations and sequentially lower by 19 days as we benefited from increased revenue and continued progress on our working capital initiatives. This level of cash cycle was the best result we delivered in the past four years."

Mr. Jermain continued, "For fiscal 2024, we generated record free cash flow of \$341 million, representing more than double our previous record performance and three times our fiscal 2024 net income. With the exceptional free cash flow, we continued to execute our share repurchase programs and reduce our borrowing, ending the year in a net cash position. Cash of approximately \$347 million was sequentially higher by \$78 million, while borrowing under our revolving credit facility was sequentially lower by \$100 million. Finally, while we expect increased investments to support future growth, we anticipate delivering robust fiscal 2025 free cash flow of \$50 million to \$100 million and deploying excess cash to create additional shareholder value."

Mr. Kelsey added, "We are guiding fiscal first quarter revenue of \$960 million to \$1.00 billion, non-GAAP operating margin of 5.7% to 6.1% and non-GAAP EPS of \$1.52 to \$1.67. Although revenue is impacted by the better than anticipated fiscal fourth quarter results, we expect to maintain our strong operating margin performance of recent quarters. We anticipate a return to sequential revenue growth with our fiscal second quarter."

Mr. Kelsey concluded, "We are positioned to continue to create substantial shareholder value in fiscal 2025. We anticipate meaningful fiscal 2025 EPS growth to result from continued robust Aerospace/Defense market sector demand, modest revenue growth in the Healthcare/Life Sciences and Industrial market sectors associated with new program ramps and market share gains, ongoing solid operating margin performance and reduced debt."

Non-GAAP Supplemental Information

Plexus provides non-GAAP supplemental information, such as ROIC, economic return and free cash flow because such measures are used for internal management goals and decision-making, and because they provide management and investors with additional insight into financial performance. In addition, management uses these and other non-GAAP measures, such as adjusted operating income, adjusted operating margin, adjusted net income and adjusted diluted EPS, to provide a better understanding of core performance for purposes of period-to-period comparisons. Plexus believes that these measures are also useful to investors because they provide further insight by eliminating the effect of non-recurring items that are not reflective of continuing operations. For additional information on non-GAAP measures, please refer to the attached Non-GAAP Supplemental Information tables.

ROIC and Economic Return

ROIC for fiscal year 2024 was 11.8%. Plexus defines ROIC as tax-effected annualized adjusted operating income divided by average invested capital over a five-quarter period for the fiscal year. Invested capital is defined as equity plus debt and operating lease obligations, less cash and cash equivalents. Plexus' weighted average cost of capital for fiscal 2024 was 8.2%. ROIC for fiscal year 2024 less Plexus' weighted average cost of capital resulted in an economic return of 3.6%.

Free Cash Flow

Plexus defines free cash flow as cash flows provided by operations less capital expenditures. For the three months ended September 28, 2024, cash flows provided by operations was \$220.1 million, less capital expenditures of \$26.3 million, resulting in free cash flow of \$193.8 million. For the fiscal year ended September 28, 2024, cash flows provided by operations was \$436.5 million, less capital expenditures of \$95.2 million, resulting in free cash flow of \$341.3 million.
